

You are cordially invited to the **ICU "Benefits for Industry Workshop"** on the occasion of SPIE Photonics Europe 2010 by the consortium of the EU funded research project ICU Infrared Imaging Components for Use in Automotive Safety Applications.

This workshop will be held on Thursday April 15th starting at 13H00 in room 313/315 at the Square Conference Centre, Museumstraat 8, 1000 Brussels, [www.square-brussels.com](http://www.square-brussels.com)

- 13H00 Presentation on ICU by Frank Niklaus (ICU coordinator)
- 13H30 Round table discussion
- 14H00 Invitation for Industrial User Club Member

Prior to the workshop all attendees are invited to the Optical Sensing and Detection Conference starting at 8H30 (Session 7: Industrial IR Detection & Session 8: CMOS and Detector Technology) during which ICU breakthroughs will be presented. **The one-day registration fee for the Conference on Thursday April 15th will be waived for all pre-registered attendees of the ICU workshop.**

For registration to the "ICU Benefits for Industry Workshop", please contact Mrs. Bernadette Callebaut before April 5th 2010.

Phone: +32 (0)2 791 68 53
